OBJECTIVE

A passionate **Full-stack Web developer** with experience in creating dynamic, user-friendly, and scalable web applications using technologies like React, Node.js, and MongoDB. Eager to apply my knowledge in both frontend and backend development to solve real-world problems and enhance user experiences. I seek an opportunity to contribute meaningfully to innovative projects while growing alongside a talented team.

SKILLS

- **FrontEnd** : HTML/CSS, JavaScript, React, Bootstrap, Tailwind.
- **BackEnd** : NodeJS, Express, REST APIs
- **Database** : MongoDB, MySQL
- **Version control**: Git, GitHub

EDUCATION

- B.Tech in Electronics & communication | KITS, Warangal **CGPA: 8.01 | 2019 - 23**
- Class XII | TS Board **94.8% | 2019**
- Class X | TS Board **93% | 2017**

PROJECTS

- **Pattern Prodigy – A memory Booster Game**
 - Digital version of the classic “Simon Says” game.
 - Developed using **JavaScript** and **HTML**.
 - Challenges players to remember and replicate increasingly complex sequences of colors and sounds.
- **WanderLust - Airbnb clone**
 - Airbnb clone built using **MongoDB, Express.js, Node.js, and REST API**.
 - Follows **MVC** architecture for organized code structure.
 - Allows users to browse and search for accommodations based on location.
 - Features user authentication, property listings, and a review system for a comprehensive user experience.
 - [Wanderlust](#)

- **Weather App**
 - Simple weather application developed using **React** and a weather API.
 - Provides real-time weather updates for various locations.
 - Displays detailed information, including temperature, humidity, wind speed, and forecasts.
- **Zerodha Clone**
 - Clone of the Zerodha trading platform created with **MongoDB** and **React**.
 - Simulates core functionalities of the Zerodha website.
 - Enables user registration, stock exploration, trading execution, and portfolio management.
 - Offers insights into online trading and investment management.

TRAINING & CERTIFICATION

- Full Stack Web Development Certification | APNA College
 - **Implemented Frontend Technologies:** HTML, CSS, JavaScript, and React.
 - **Implemented Backend Technologies:** Node.js and Express.js.
 - **Database Skills:** Worked with MongoDB and MySQL.
 - **Version Control:** Used Git for managing code changes.
 - **API Development:** Built and used RESTful APIs.
 - **Deployment:** Learned how to deploy web applications online.

ACHIEVEMENTS

- Runner-up in an inter-college football tournament twice.
- Led and managed a sport in the inter-college sports event at our college.
